WHY CHOOSE SUNSHIELD® VINYL?

YOUR VERSATILE WINDOW SOLUTION

Endure windows are constructed of SunShield vinyl, made with a compound proven to perform better than alternative building materials. SunShield weathers the toughest conditions — from coast to coast, and everywhere in between.

- ✓ Vinyl is the low-maintenance choice for homes.
- ✓ The vinyl compound is uniquely formulated to withstand the harsh effects of weather, UV light and southern exposure.
- ✓ Pharmaceutical-grade compounding and blending systems provide consistency, so you can rely on superior color and weatherability.
- ✓ Industry partnerships and on-going research into new technologies ensure the vinyl compound exceeds industry standards, outperforms the competition, and works together to offer best-in-class technology.
- ✓ Resistant to rot, insect, and microbial damage.
- ✓ Never requires painting.
- ✓ Easy to clean with common household cleaners.
- ✓ 100% Recyclable for a more sustainable future.
- ✓ Helps to reduce your heating and cooling costs with nearly 1,600 times the thermal efficiency of aluminum windows.
- ✓ Resistant to water and light for uniform quality and color over time.

WHY BUY ENERGY STAR CERTIFIED WINDOWS AND PATIO DOORS?

SAVE ENERGY & REDUCE POLLUTION

Lower energy consumption reduces greenhouse gas emissions from power plants and shrinks a house's carbon footprint.

SAVE MONEY

Replacing old windows with ENERGY STAR certified windows lowers household energy bills by an average of 12% nationwide.

GET COMFORTABLE

With ENERGY STAR certified windows, interior glass stays warmer keeping you comfortable even when the temperature outside dips well below freezing.

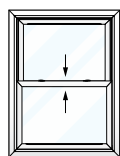

PROTECT VALUABLE INTERIORS

Curtains, wood floors or a favorite photograph can fade or discolor after repeated exposure to direct sunlight. Many ENERGY STAR certified windows have a special coating on the glass that acts like sunscreen for your house. These special coatings reduce fading by as much as 75% without noticeably reducing visible light.
